1. The firm Pozink located in Petrzalka (Pl9/X99) is managed from Kovosmalt in Trnava (Pl9/T22). The plant employs 350 workers and is engaged in the production of kitchen equipment: galvanized milk cans, wash basins and tubs, etc. Aluminum canteens are produced for the army at the rate of about 400 per day. The plant is equipped with 60 presses, 20 machines for sheet metal press work, ten welding machines, two galvanizing baths, drilling and riveting machines, and machines for rolling tin plate. The plant buildings are made of wood and are in poor condition.
2. Another of the Kovosmalt-managed plants in Petrzalka is one for the manufacture of flexible pipe (Ohebné hadice). Antiquated equipment is operated by approximately 100 workers who produce flexible metal pipe for bathroom fixtures, vacuum cleaners and casings for electric cables. The plant is also equipped with four machines for covering the pipe with fabric.*
3. Still a third plant in Petrzalka operating under Kovosmalt management produces locks and keys. This plant, employing 60 persons, is of minor importance.

25X1 * Another plant with greater capacity for producing the same type of pipe is Kovolis located at Modrice (P50/S49) near Brno.
